## DESCRIPTION:

The Model 5508-00 Quartz Clock utilizes a laser tuned, hermetically sealed Quartz oscillator. Designed as a chart drive for Type A and F Recorders, this instrument offers precise timing with minimal power consumption. A 6 to 15 VDC battery assures continuous operation.

With the Model 5508-00, the user can select the chart speed for the recorder. The "Fast Advance" push button takes up chart slack and adjusts chart time. There are no mechanical components and/or mechanisms to hamper operation making the 5508-00 Quartz Clock virtually maintenance free. A 3 foot power cable is included.

## SPECIFICATIONS:

Power . . . . . 6 to 15 VDC  
 Power Consumption . . . . . Less than 2mA  
 Size . . . . . 2.875"W x 4.25"H x 2.125"D  
 Weight . . . . . 14 Ounces  
 Shipping Weight . . . . . 2 Pounds

## ORDERING GUIDE:

Model 5508-00 . . . . . Quartz Clock

## OPTIONAL:

Model 5100-00 . . . . . Extra Cable (1' Increments)  
 Model 5601-01 . . . . . 12 Volt, 7 Amp Battery
